

**Confederation of  
Indian Industry**

The 9<sup>th</sup> Yi National Summit

**YOUTH LEADING INDIA  
INTO THE FUTURE**

22-23 February 2013: New Delhi

**Young Indians**  
**WE CAN WE WILL**

*Celebrating 10 Years*

**Day 1: 22 February 2013**

**0930 – 1035 hrs Inaugural Session**

*Over 35% of India's population is below the age of 20; by 2020, it is expected that 325 million people in India will reach working age, which will be the largest in the world. This will come at a time when the rest of the developed world will be faced with an ageing population, while India will have a surplus of 47 million working people. Today's youth of India are perhaps the smartest of all time. Their achievements in business, technology, sports and other fields are outstanding. Many have overcome tremendous odds and helped place India in the limelight of the global stage. The focus for a majority of the youth however, appears to be narrow, restricted to their careers, families and the regions they belong to.*

*Corruption, as an issue has always been one of the toughest battles that India had to fight against – and while the youth have come together in the past years to express their displeasure and need for the government to take action, it is still to see the fruition stage. With many factors that are positive for India, it still has the world's largest number of people living on \$1.25 or less according to a recent study and more than 48% of Indian children malnourished, making the young people need to be aware of the fact that they must work towards an inclusive society.*

## Day II: 23 February 2013

**1000 - 1100 hrs**

### Youth: Building International Linkages

*International Relations as a discipline are fast assuming a role, unparalleled in the modern globalising world. The problems that the globalized world faces are no longer restricted to a single nation or region. We are granted to solve them by involving trans-national actors and institutions. India cannot stay behind in these efforts and needs to be in an active engagement in the process. India is asserting its place boldly in the International Political space. Even in other important spheres of Economics and Trade, our Nation is playing a diversified role; at times as a rallying point for aggrieved nations and other times as a harbinger of change.*
