RAJIV MEMANI

President
Confederation of Indian Industry
(CII)

I commend CII Young Indians (Yi) for a strong and purpose-driven year that reflects the spirit of a rising Bharat. In 2025, Yi continued to demonstrate the power of youth leadership anchored in a shared commitment to nation-building, social responsibility, and collective progress.

Across the country, Yi has remained a dynamic platform for empowering youth, nurturing leadership, and driving positive change at the community level. Its initiatives have focused on strengthening values, building responsible citizenship, and encouraging socially conscious action. Through sustained engagement, Yi has consistently translated ideas into impact. The dedication and energy of its members have not only expanded Yi's reach but also reinforced its role as a trusted voice of India's young generation.

Yi's work reflects the aspirations of a confident and forward-looking Bharat, led by young people who are resilient in thought, inclusive in action, and ambitious in vision. The collective spirit demonstrated by Yi members continues to inspire confidence in the role of youth as partners in India's development journey.

As India advances steadily toward its goal of becoming a developed nation, the contribution of young people assumes even greater significance. With a large and vibrant youth population, the country is uniquely positioned to harness ideas, innovation, and leadership at scale. Yi is well placed to deepen its efforts, strengthen collaborations, and further empower young leaders who can contribute meaningfully to India's economic and social progress.

Looking ahead, I am confident that Yi will continue to grow in impact and remain a strong catalyst for youth-led progress and nation-building. I extend my best wishes to Team Yi as it carries forward the shared vision of a truly rising Bharat.

CHANDRAJIT BANERJEE

Director General
Confederation of Indian Industry (CII)

As a key youth initiative of CII, Young Indians (Yi) has continued to strengthen its role in shaping the aspirations of a Viksit Bharat. The year 2025 marks a defining chapter in Yi's journey, one where the organisation has expanded its and deepened its impact across communities, sectors and regions. Establishing Yi as an organisation of significance has been made possible through a steadfast commitment to excellence, collaboration and purpose-driven action.

Yi today stands as a nationwide movement that reflects the aspirations of a Viksit Bharat—innovative, inclusive and future-ready. With 72 chapters and over 7700 members, Yi continues to empower youth, nurture entrepreneurship and drive meaningful social change. Flagship initiatives such as the Thalir Young Indians Parliament, YUVA Future 5.0, Project Masoom, Rural Rise Initiative, Young Indians Financial Independence (YiFi) Summit, and Road Safety Initiatives have together impacted millions, showcasing Yi's unwavering focus on building a confident, capable and compassionate Bharat.

Yi's collaboration with the Ministry of Youth Affairs through initiatives such as the BIMSTEC Summit and the Viksit Bharat Young Leaders Dialogue has further strengthened youth engagement at the national and regional level. The progress achieved this year reflects the collective dedication of Yi members across the country. Each chapter through its local engagement has played a vital role in advancing Yi's mission and contributing to the broader vision of CII.

As the new year begins, Yi is well-positioned to continue setting benchmarks in youth leadership and fostering collaboration that connects communities, industries, and ideas. The momentum built this year will help create greater impact, inspire more young minds, and strengthen the shared mission of building a Viksit Bharat through the power, purpose, and passion of India's youth. Yi's continued progress will remain central to CII's broader vision for a Viksit Bharat. The journey ahead will build on this momentum and unlock even greater avenues for youth-led transformation.

TARANG KHURANA

National Chairman
Young Indians

The year 2025 marks a defining moment in our journey as Young Indians — a year where we have truly shifted gears and embraced the spirit of Bharat Rising. Establishing Yi as an organization of significance has been made possible only by building it into one of excellence and collaboration. Growth for Yi today goes far beyond numbers — it is reflected in our mindset, our capacity to innovate and our shared pursuit of excellence that now defines every fibre of this movement. A movement driven by the pursuit of creating impact with every action.

Yi has evolved into much more than an organization; it is now a nationwide movement that embodies the aspirations of a Bharat Rising — one that is mentally resilient, socially responsible and future-ready. Across the nation, we continue to empower youth, nurture entrepreneurship and build communities that drive change through innovation and inclusion.

This year, we strengthened our footprint to 72 chapters, expanded our membership base to 7,800+ and impacted millions of our stakeholders through our projects and initiatives. These efforts together underscore Yi's growing role in shaping the narrative of a new Bharat — confident, capable, and compassionate.

2025 at Yi has been about deep engagement, sustained work and scalable impact. An idea that shines throughout the phenomenal work that we see all around us. This Annual Report is a very small representative of the tireless efforts undertaken by our leaders across Bharat. Yi is a grassroots driven organisation where all of you at your respective chapter levels showcase what it means to be a changemaker. The team's dedication and alignment with Yi's national vision have truly reflected the spirit of collaboration and excellence that defines our collective success.

As we step into another exciting year, we do so with renewed energy and purpose. Let us continue to build on this momentum — to lead with empathy, and act with integrity. To be able to give back to the society, to be able to help uplift communities and to be able to mentor young Indians across, is a privilege for all of us. Let us together fulfil our potential of being change enablers so we can help raise a wave of chang makers.

My sincerest appreciation to each and every member and their tireless, selfless dedication and service towards Bharat. May this continue rise year on year with collective resolve, because We Can and We Will!

Jai Hind!

ARUN RATHOD

National Vice Chairman
Young Indians

The year 2025 has been a defining chapter in the journey of Young Indians, a year in which our collective purpose transformed into power, our ideas into impact and our aspirations into action. As Yi continues to expand its footprint across the nation, what truly sets us apart is our unwavering belief in the promise of a Bharat Rising, driven by young leaders who are willing to challenge, innovate and lead with conviction.

Yi today stands as one of India's most influential youth platforms—a community that nurtures leadership, sparks innovation and enables young citizens to contribute meaningfully to nation-building. Through initiatives rooted in learning, entrepreneurship, social impact and civic engagement, our members have demonstrated what becomes possible when purpose aligns with passion. Their efforts continue to shape a generation that is confident, compassionate and committed to creating a better India.

Our greatest strength lies in our grassroots network. Every chapter, every volunteer, and every initiative has contributed to building Yi's powerful national presence. It is this decentralised energy, thoughtful persistence and drive that keeps Yi vibrant and deeply connected to India's evolving needs.

Under the remarkable leadership of Mr Tarang Khurana this year has seen Yi grow not just in numbers but in spirit, direction and ambition, his ability to inspire, unite and elevate the organisation has left an enduring mark on our movement. We remain deeply grateful for his vision and the transformative momentum he helped create in 2025.

As we stand at the threshold of 2026, the horizon before us is filled with new possibilities. India is on the cusp of transformative growth and Yi's role in preparing young leaders to navigate and lead this change has never been more vital. The responsibility we carry is immense but so is the opportunity to shape the India we envision dynamic, inclusive, innovative and Viksit.

In this spirit, I look forward to working closely with Mr Anuj Agarwal as we build upon the strong foundation laid this year. Together, with collective resolve and a renewed sense of purpose, we will strive to elevate Yi's impact and further strengthen our contribution to the nation.

LEADING THE ROAD TO SAFETY THROUGH COLLABORATION AND IMPACT

When road safety becomes a shared responsibility, cities transform faster. Yi Rajkot demonstrated this by building a unified, multi-vertical movement in partnership with the Gujarat Road Safety Authority (GRSA) - aligning students, members, rural communities, and state leadership toward one purpose: saving lives.

IMPACT ACROSS VERTICALS

Road Safety Awareness and Chhota Cop sessions helped young students learn discipline, signals, and safe behaviour through engaging demonstrations.

IMPACT: 100 CHILDREN TRAINED AS CHHOTA COPS

First Responder training equipped youth and members with life-saving skills, creating a strong volunteer force ready for real-world emergencies.

IMPACT: 867 TRAINED FIRST RESPONDERS

Awareness sessions in rural schools ensured inclusivity, teaching students essential road habits often missed in peripheral communities.

IMPACT: 1,678 INDIVIDUALS SENSITISED IN RURAL AND SEMI-URBAN AREAS

WHY RAJKOT'S MODEL STANDS OUT

As Rajkot grows rapidly, Yi has become the connecting force between citizens and the GRSA — enabling knowledge-sharing, on-ground training, and a culture of shared responsibility. This collaborative model is now evolving further with a major road safety engagement planned with the GRSA Commissioner to empower 750 YUVA students on 7th November.

Yi Rajkot's work shows what happens when awareness, partnerships, and youth leadership converge: a scalable, measurable, sustainable model of civic action that other chapters can replicate. Real change begins when entire communities learn, lead, and live the values of road safety— together.

INVESTMENT OPPORTUNITIES FOR YOUNG INDIA
